

JANUARY | FEBRUARY | MARCH | APRIL | MAY | JUNE | JULY | AUGUST | SEPTEMBER | OCTOBER | NOVEMBER | DECEMBER

LIST OF SPECIES:

DISCLAIMER:

Flowering dates are affected by latitude and growing degree days. As a result, the above table is for relative bloom representation only. For best use shift the entire chart based on known bloom periods in your area.

www.PasturesForPollinators.com

Pollinator friendly forage species accomplish both highly nutritious grazing / feed for livestock and highly nutritious feed and habitat for pollinators.
